

ADITYA KUMAR

Data Analyst | Python • SQL • Power BI • Tableau • Machine Learning

kumar1801aditya@gmail.com | 929-697-1799 | Patna, Bihar | GitHub • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 2+ years of hands-on experience transforming complex datasets into actionable business insights. Expert in building end-to-end analytics pipelines using Python, SQL, and leading BI tools (Tableau & Power BI). Demonstrated success in designing KPI dashboards, executing rigorous data governance to achieve 100% data reliability, and applying machine learning techniques for predictive modelling. Adept at communicating data-driven findings to stakeholders and helping leadership make confident strategic decisions.

TECHNICAL SKILLS

Analytics	Python, Power BI, Tableau, MS Excel, MS Office, Business Intelligence (BI), Google Analytics, ETL
ML / AI	Scikit-Learn, Pandas, NumPy, Matplotlib, Seaborn, NLTK, SpaCy, Data Modelling, Hypothesis Testing, Statistical Analysis, Predictive Analytics
AI Tools	ChatGPT, Claude, Gemini, Generative AI
Workflow	ETL Pipelines, Data Pipeline Design, Data Wrangling, Stakeholder Reporting
Databases	SQL Server, PostgreSQL, DBeaver, Data Warehouse (Basics)
Dev Tools	VSCode, GitHub, Jupyter Notebook, Google Colab

PROFESSIONAL EXPERIENCE

Softobotics Technologies | Bengaluru, Karnataka May 2024 – April 2026

Data Analyst

- Analysed complex datasets using statistical techniques and delivered ongoing stakeholder reports and BI reporting, enabling leadership to make data-driven strategic decisions with measurable impact.
- Designed and maintained 10+ interactive BI dashboards in Tableau and Power BI, visualising KPIs that directly influenced business unit performance reviews.
- Led data scrubbing and validation cycles across primary and secondary data sources, achieving 100% data reliability for all business intelligence reporting.
- Delivered weekly and monthly stakeholder reports for 3+ business units, reducing manual reporting effort and enabling faster decision cycles across the organisation.

INTERNSHIP EXPERIENCE

Accenture North America — Forage Simulation 2024

Data Analytics & Visualisation Intern

- Cleaned, modelled, and analysed 7 datasets to uncover content trends for a hypothetical social media client; delivered findings via PowerPoint and video presentation to stakeholders.

PwC Switzerland — Forage Simulation 2024

Power BI Analyst Intern

- Built call centre, customer retention, and Diversity & Inclusion dashboards in Power BI to surface actionable HR and operational insights.

Unified Mentor Private Limited Apr 2024 – May 2024

Data Analyst Intern | Gurugram

- Conducted EDA on Amazon Sales and India Crop Production datasets; created Tableau dashboards to deliver domain-specific insights for stakeholders.

ACADEMIC PROJECTS

Zomato Restaurant Clustering & Sentiment Analysis

- Cleaned and processed 50,000+ restaurant entries; performed feature engineering on cost, cuisine, and rating attributes.
- Conducted sentiment analysis on 10,000+ reviews using NLTK; implemented TF-IDF and Bag-of-Words vectorisation for ML compatibility.
- Applied K-Means and Agglomerative Clustering; used Elbow Method and Silhouette Score to identify optimal segments. Key finding: price does not consistently predict positive sentiment.

Android Authenticity Prediction — Malware Classification

- Built a binary malware classifier using Logistic Regression, Decision Trees, Naive Bayes, Gradient Boosting, and XGBoost; optimised via Grid Search CV.
- Achieved 92% classification accuracy in distinguishing malicious Android apps from benign ones.

Bike Sharing Demand Prediction — Regression

- Developed demand forecasting model using Linear Regression, Random Forest, and XGBoost; evaluated with MSE, RMSE, MAE, and R² metrics.

EDA on Airbnb Booking Analysis

- Analysed occupancy and booking trends, customer segmentation, seasonal patterns, and geo-spatial data to generate actionable insights for hosts and property managers.

TRAINING

AlmaBetter | Bangalore

Jan 2023 – Feb 2024

Data Scientist & Data Analyst

- Completed intensive programme covering Python, SQL, machine learning, and business intelligence tools with real-world project-based learning.

CERTIFICATIONS

- Full Stack Data Science & AI
- Power BI
- Tableau
- AI Tools & ChatGPT Workshop
- Generative AI
- Data Analyst Internship

EDUCATION

Master of Commerce in Accountancy

2019 – 2021

Nalanda Open University, Patna

Bachelor of Commerce in Accountancy

2014 – 2017

Magadh University, Patna
